INRODUCTION

Dear Colleagues,

I have great pleasure in inviting you to the European Congress of Homeopathy in Riga. The place that is chosen for the congress is just special. Riga is situated between East and West and is symbolic for an ideal meeting place for people of different countries, who want to share their experiences from their practice and also learn from each other. Our organizing team will make every effort to make your stay unforgettable by creating an ambiance of learning and pleasure, while offering improved tools for the practice. Our international Scientific Committee has the task to guarantee lectures of high worth for your work with patients.

Homeopathy teaches us a broad and high understanding through life and Nature's observations. Their findings are not the result of sentimental and mystical intuitions, but are based on practical insights of highly evolved minds.

Homeopathy also needs to take responsibility to spread Hahnemann's message in his spirit. Hahnemann would always have continued to find ways of reducing the suffering of humankind.

One of the goals of this congress is to go back to homeopathy's roots and show that following the principles of Hahnemann holds incontestable truth and power to relieve even the most severe and new illnesses of the last decades.

The goal is to unite homeopaths from different countries with different experience to further explore and clarify Hahnemann's discoveries and provide attendants with excellent tools to face the new challenges of the 21st century. May this congress in Riga be an excellent impulse for further development of the possibilities of Homeopathy.

Homeopathy has a great responsibility to train and educate highly qualified practitioners, who are capable to apply its core principles consistently as Hahnemann has outlined them in the *Organon and Chronic Diseases*. The Riga congress will be a stepping stone and impetus to give homeopathy its deserved place of primary intervention in any family. Homeopathy deserves to be at the forefront of treatment choices for any disease and not be delegated an auxiliary role among the many proposed therapies.

Welcome to the Congress!

Luc De Schepper, M.D., PhD, Lic. Ac.
The president of European Congress of Homeopathy

My dear colleagues,

When hundreds of people united by a noble goal and universal philosophy gather together, it is indeed an event of great importance for the whole world.

I am greatly honored and pleased to invite you to Riga, capital of Latvia, a hospitable and friendly Baltic country to host an event of such a scale – the European Homeopathic Congress.

The aim of the Congress is to create a **bridge of knowledge** between those countries where Hahnemannian homeopathy is held in high esteem and those whose homeopathic tradition still needs to develop and mature.

We also hope our Congress will make it obvious there exists another intangible bridge bringing together Art and Science, for Homeopathy, as we all know, is both Science and Art at the same time, and the bridge between the two lies on solid pillars of homeopathic principles derived from Laws of Nature itself.

We do believe the Congress will adequately reflect the state of homeopathy as it has evolved by the year 2011, and will identify the most essential trends of its further development.

We'll be speculating on various natural phenomena that can be revealed due to patients' evolution in the course of homeopathic treatment and assessing the value of natal and prenatal history; we'll be trying to shed light on secrets of the unborn child's life, the memory mechanism and miasmatic development of children; we'll attempt at identifying limitations of homeopathy when dealing with genetically determined pathology; we'll discuss controversy associated with vaccination and possible alternatives to substitute for it. We'll talk about the art of being able to reach, through homeopathic treatment, the Inner Child in every patient of ours. And also, we'll try to show how problems, occurring early in life, if not recognized and cured in time, negatively influence one's destiny and life, reducing it to mere survival. We'll discuss methodology of homeopathic treatment of diabetes, cancer, mental disorders and other illnesses in children and adults. Thus, you'll be given excellent opportunities to share with us your success stories - brilliant cases of homeopathic methods curing diseases, deemed incurable by traditional allopathic medicine.

The Congress will also be of interest to our skillful assistants, the homeopathic pharmacists, who doctors depend and rely on for the realization of their decisions. Quality of homeopathic preparations manufacturing, procedures for their registration in different countries, as well as other important issues will become topics for pharmacists' discussion. A Special Forum awaits veterinarians and dentists who apply homeopathic treatment in their practice.

There is another important item on the Congress agenda to be offered to the audience. It's a proposal to create a new school of higher learning - Medical University of Homeopathy.

We are sure your participation in the Congress, your thorough insights and ideas will contribute to its success. So, we invite you to join your colleagues from all over the world and enjoy a highly professional discussion, and share your experience and expertise, as well as veneration for the Guiding Art of Homeopathic Cure, with all of us.

About the host country, its capital and the Spring

Latvia has molded its identity as a geographical and historical crossroad. And this is what makes it quite unique. Its capital city, Riga (member of the medieval Hanseatic Union), saw the opening of the country's first homeopathic pharmacy in 1833 – the year when Hahnemann's 5th edition of “Organon” called the “Ground Breaker” by modern practitioners was published. And now Riga is to become venue for the international forum on homeopathy!

So, you may really have a great chance to visit a city, famous for its charm and rich history. Besides, you will also be treated to a performance at the Latvian National Opera and a concert by an Austrian homeopath physician Walter Gluck in St.John's cathedral. You will be able to partake of some gourmet dishes the Latvian cuisine boasts of, enjoy dancing at the Gala Dinner and recharge your batteries at the First Homeopathic Tennis Tournament!

May is probably the most beautiful month of the year in Latvia. You will see rhododendrons in blossom and the Baltic Sea awakening...

We are sure you will have a lot of good memories of the Congress and other wonderful things we can share!

Welcome to the European Congress of Homeopathy in Riga!
